SEATING AND WALKWAYS:

Waterproof and prolong the service life of seating areas and walkways with Peda-Gard.

- **Renewable:** Surface applied systems are renewable and sustainable for the life of the structure.
- **Slip Resistant:** Embedded aggregate provides a durable and slip resistant surface.
- **Reduce Down Time:** Fast curing systems are low odor and reduce down time.
- **Match Team Colors:** Available in decorative finish or customize to match team colors.

PARKING:

Reduce maintenance and repair costs of parking structures and loading docks with Auto-Gard.

- **Reduce Scaling and Spalling:** Protecting concrete and rebar from moisture and chloride intrusion reduces scaling and spalling.
- **Prevent Leaks:** Elastomeric systems bridge new and existing cracks and provide leak protection.
- **Breathable:** Polyurethane technology is breathable and allows moisture to escape.

WALLS:

Protect and finish exterior concrete and masonry walls with elastomeric wall coatings.

- **Elastomeric:** Acrylic elastomeric formulation prevents moisture intrusion and accommodates thermal expansion and contraction.
- **High Build:** High build application bridges cracks and hides surface imperfections.
- **Weatherproof:** Available in a wide range of colors that resist water, dirt and UV degradation.

ROOFS:

Extend the service life of direct bond, foam, metal and concrete low-slope roofs with seamless elastomeric roof coating solutions.

- **Use Existing Roof:** Lightweight system goes over existing roof without tear-off, reducing cost of installation and exposure to weather.
- **Conserve Energy:** Light reflective coatings keep buildings cooler and lowers energy expenses.
- **Wind and Hail Resistant:** Resistance to high winds and hail means fewer repairs and insurance claims.
- **Proven Track Record:** Performance over a variety of substrates has been tested and proven over 30 years.

NEOGARD® IS A DIVISION OF JONES-BLAIR® COMPANY

For over 80 years JONES-BLAIR® has produced high performance coating systems to solve problems. These solutions come from our

ability to understand and respond to our customer's needs, and are made possible by our world class lab and manufacturing facilities.

NEOGARD® products protect many of the world's most prestigious structures.

INTERIOR FLOORS:

Improve the serviceability of concession and bathroom floors and other high traffic areas with high performance flooring solutions.

- **Easy To Clean:** Seamless and chemical resistant systems are easy to clean and maintain.
- **Impact Resistant:** Stronger than concrete* epoxy technology resists impact and abrasion and prolongs the life of the floor.
- **User Friendly:** One product systems simplify application and reduce cost.

REFLECTING POOLS:

Prevent leaks in fountains and reflecting pools with Pool-Gard.

- **Water Containment:** System is resistant to constant immersion and most water treatment chemicals.
- **Decorative:** Available in a wide range of colors.

EXPOSED METAL:

Protect railings, facades, roofs, seats, signs and other structures and decorate in custom colors with Acrylithane.

Superior chemical and corrosion resistance extends the service life of the structure.

Excellent durability and color and gloss retention improves appearance.

High solids formulation can be spray, brush or roller applied.
